

## CR 112 bridge at Browns Creek to close for replacement June 1

---

May 29, 2026

**MILLS COUNTY** – Beginning June 1, 2026, TxDOT’s contractor will close the bridge on CR 112 at Browns Creek in preparation for replacement of this structure. This bridge is located approximately 6 miles north of Goldthwaite near Lake Merritt.

Traffic will not be able to pass through this location of CR 112 and a detour has been established as follows:

- Westbound motorists will detour north at CR 120, then turn left onto CR 113 (following it west and then south) to reconnect with the western side of CR 112.
- Eastbound motorists will detour north on CR 113 (following it north, then east), then turn right on CR 120 to reconnect with the eastern portion of CR 112.

During this closure and construction, access points along CR 112 will be available.

Replacement of the bridge should be complete by early October, weather permitting.

Media may contact TxDOT Brownwood District’s public information officer at [lisa.tipton@txdot.gov](mailto:lisa.tipton@txdot.gov) or (325) 643-0413.
